

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Mayacamas Countywide Middle School

CDS Code: 28-10280-0148361

School Year: 2024-25

LEA contact information: Catherine Adams, (707) 320-6394, cathy.adams@mayacamas.school

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2024-25 School Year

Projected Revenue by Fund Source

This chart shows the total general purpose revenue Mayacamas Countywide Middle School expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Mayacamas Countywide Middle School is \$2,002,160.00, of which \$1,409,550.00 is Local Control Funding Formula (LCFF), \$387,448.00 is other state funds, \$132,920.00 is local funds, and \$72,242.00 is federal funds. Of the \$1,409,550.00 in LCFF Funds, \$111,622.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Mayacamas Countywide Middle School plans to spend for 2024-25. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Mayacamas Countywide Middle School plans to spend \$1,906,133.00 for the 2024-25 school year. Of that amount, \$1,369,896.35 is tied to actions/services in the LCAP and \$536,236.65 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Expenses that may not be captured within the LCAP include some costs related to the educational program as well as auxiliary services and costs that are not associated with the educational program. Larger expenses not included in the Goals and Actions include Special Education costs, office costs and staff, nutrition program costs, district oversight fees, general insurance, other fees and contracted services, depreciation and other miscellaneous costs.

Increased or Improved Services for High Needs Students in the LCAP for the 2024-25 School Year

In 2024-25, Mayacamas Countywide Middle School is projecting it will receive \$111,622.00 based on the enrollment of foster youth, English learner, and low-income students. Mayacamas Countywide Middle School must describe how it intends to increase or improve services for high needs students in the LCAP. Mayacamas Countywide Middle School plans to spend \$134,141.00 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in not available because first year operating is 24-25

This chart compares what Mayacamas Countywide Middle School budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Mayacamas Countywide Middle School estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In not available because first year operating is 24-25, Mayacamas Countywide Middle School's LCAP budgeted \$0.00 for planned actions to increase or improve services for high needs students. Mayacamas Countywide Middle School actually spent \$0.00 for actions to increase or improve services for high needs students in not available because first year operating is 24-25.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2024-2025]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Overview, background, mission and vision: Opened in August of 2024, Mayacamas Countywide Charter School (MCMS) is a 6th – 8th grade middle school located in the former St. John’s Catholic School in downtown Napa but open to students from all of Napa and adjacent counties. In the first year, the school is serving 131 students across the 3 grades. Mayacamas is governed by the Napa Foundation for Options in Education (NFOE), with a seven-member Board. The NFOE was founded on June 30, 1994 to provide a uniquely personalized and supportive public school option for Napa middle school students and their families.

Background: MCMS is the outgrowth of two previous charter schools: River School, a dependent charter of Napa Valley Unified School District which operated for over two decades until 2021, and Mayacamas Charter Middle School, an independent charter granted by the State Board of Education and assigned to Napa County Office of Education for oversight and support, which operated in 2023-24. Recognizing the need countywide for a middle school with Mayacamas’ unique approach, the founders submitted their countywide charter petition in January 2024 which was authorized by the Napa County Office of Education in May 2024. The Charter Middle School was closed officially in July 2024.

The MCMS immediate predecessor, the Charter Middle School, enrolled just 74 students in year one, given that litigation initiated by Napa Valley Unified School District left the school in authorization limbo until late July 2024. At that point, the NFOE Board voted to open the school the next month, and, with less than 4 weeks’ notice, welcomed 69 students on the first day. It was a difficult year for many reasons, including the level of academic and social/emotional need in the small student body, the lack of administrative personnel (one .67 administrator), teacher turn-over in 2 positions, and the loss of summer professional development time. But in June, the Charter Middle School promoted 17 8th graders and in August, the Countywide Middle School enrolled 54 former Charter Middle School students, representing 41% of the Countywide student body.

Because the Mayacamas Countywide and the Mayacamas Charter are two different schools, with students from the Charter representing a minority of students in the Countywide, the NFOE Board determined to follow the lead of the California Department of Education in their Dashboard accountability data and treat the Countywide LCAP 2024-2028 as a new and independent document, not an extension of the Charter LCAP.

Mission: Mayacamas Countywide Middle School provides a unique opportunity for diverse students from across Napa County to receive a highly individualized education in a small-school environment. As a countywide benefit charter school that is diverse by design, we are committed to providing a highly-personalized program that differentiates curriculum and instruction to meet individual students’ needs to

students with diverse learning needs: socio-economically and racially/ethnically diverse students, students from different cultures and backgrounds within the Napa Valley, English Learners, foster youth, neurodiverse students, special education students and students who are accelerated learners. Through innovative and individualized curricula, project-based learning through NTN, through our partnership with area institutions of higher learning community organization and business partnerships, online learning, block scheduling and other engaging strategies, as well as an emphasis on students' social-emotional development, Mayacamas will ensure students master state content standards and grow developmentally in an inclusive, welcoming, and supportive school culture.

Vision: Our vision is that Mayacamas Countywide Middle School will offer families across Napa County an important option for their children's middle grades education (and the option to have a complete K-12 pathway in New Tech Network schools). We will prepare students for success in rigorous high schools, post-secondary education, and meaningful careers. We will provide the structure for student grade-level mastery of the New Tech Network workforce-aligned skills of Knowledge & Thinking, Collaboration, Oral Communication, Written Communication and Agency, along with Social-Emotional Learning goals of age-appropriate Self-Awareness, Adaptability, Empathy, Collaboration, Agency, and Purpose.

The uniqueness of Mayacamas: MCMS offers an educational experience found nowhere else in the County, including the following unique elements:

Problem/project-based learning: Heralded as one of the most engaging and effective educational strategies, problem/project-based learning focuses on the mastery and application of California State Standards. Mayacamas makes learning come alive through collaboratively planned real world or simulated projects, many confronting local and global issues that require problem solving, critical thinking, and active engagement with the concepts and standards they are applying. Using an alternating block schedule, Math and Science classes are on the same days, with ELA and History/ Social Science on the same alternating days, allowing for natural flow between these classes. Ninety-minute periods allow students more time to explore a task deeply, conduct surveys, build models, engage in research, discuss and debate, make mistakes, and try again. While there is currently one elementary school and one high school offering problem/project-based learning, there are no middle schools, other than Mayacamas.

Highly personalized learning environment: The highly personalized learning environment at MCMS empowers students to take charge of their education. Every student has an Individual Learning Plan (ILP), with personal goals and information about how they best learn, areas of strength and interest, and areas of challenge, based on a variety of assessment data, and discussions among the Advisor, student, and parents/guardians. Advisors review students' ILPs one-on-one at least once monthly, and students discuss their progress with their parents/guardians in twice-yearly student-led conferences. While the school holds high expectations for every student's success, there are also provide comprehensive supports provided through a Multi-Tiered System of Support (MTSS) program that leverages differentiated instructional and behavioral/psycho-social strategies for student success. Online, adaptive "blended" learning programs, some AI, include Teach-to-One in mathematics, Amira in ELA, and Newsela for science, history/social studies, arts, and physical education. These programs supplement direct classroom instruction and provide personalized practice and skill development based on individual student needs. Teachers can access data 24/7 to determine where students need additional support and which content standards they have mastered. During the 45-minute Learning Lab four times a week, students complete personalized assignments in the online programs, engage in small group instruction, online learning, tutoring (using Brainfuse HelpNow), advanced learning opportunities, and, for students with special needs, intervention services including IEP services and/or English Language Development targeted, designated instruction. Potential future dual-enrollment in appropriate college courses may provide individualized and group options for learning outside the Mayacamas traditional curriculum. No other middle school in the County provides this scope of personalized learning.

Mayacamas College and Career Explorers program: Mayacamas is working with community colleges, four-year universities, and trade schools and groups to create the unique “Mayacamas College & Career Explorers Program” for students. Using the project-based learning model, each year Mayacamas staff and teachers will collaborate with members of the Board, the community, and partner colleges/trade schools to introduce students to potential career pathways and post-secondary education, and to create cross-functional projects around the specific opportunities provided by the different experiences. Mayacamas is partnering with a variety of post-secondary institutions to give students the chance to see what college and trade school is really like. Such experiences may provide the opportunity for students to tour campuses, learn about specific career programs, visit classes, talk to current students, and dine in campus eateries; and for professors, instructors, and college or trade school students to give lectures on different topics and to coach students in their projects. The “Mayacamas College & Career Explorers Program” builds on the College and Career Readiness (CCR) curriculum of CDE’s CalCRN. CalCRN 5-7 lessons at each grade level, delivered through Advisory, provide age-appropriate assessments leading to short- and long-term planning for high school graduation and post-secondary education or training and investigation of the state’s 15 career pathways. The entire Explorer’s program is designed to make post-secondary education real, especially for students from low-income families who may be first-generation college completers. Mayacamas is the only middle school in the County with such an extensive CCR program.

A culture of social-emotional learning and wellness: Through daily Advisory sessions and their classes, students learn about themselves and how to interact with their peers and adults in respectful, responsible ways. Grade-level appropriate lessons in developing critical “lifeskills” and character traits—focused on the MCMS social-emotional learning goals of trust, responsibility, respect for self, and respect for others—will be infused throughout the curriculum. In sixth grade the program lays the foundation of learning: how to “fail,” try again, iterate, and persist with a growth mindset. The growth mindset then becomes the schoolwide theme for learning. The *Wayfinder* curriculum is used during Advisory and throughout the day, with the concepts discussed and applied throughout classroom instruction, as appropriate. A part-time counselor collaborates with teachers to ensure that classroom management and discipline strategies are effective and sensitive to students’ experiences and needs, both within and outside the school. The counselor leads small groups on topics appropriate to early adolescents, provides counseling assessments for individual students, and refers families and students to partner agencies for additional support.

Enrollment and demographics: As of the October 2024 CBEDS student count, in our first year, the enrollment is 130. The plan presented in the school’s Charter showed initial enrollment in year 1 at 150 students. However, the circumstances described under “Background” above resulted in final approval of the charter—and thus the existence of the school—in May 2024, long after most families had made their middle school decisions. The school is confident that enrollment will not be an issue in the future and continue to plan to grow the school across the next four years, resulting in an enrollment of approximately 324 by school year 2027-28.

The school’s Charter states the intent to create a student body reflective of that in grades 6-8 countywide. The chart below shows the current student demographics for MCMS compared to students countywide. It utilizes the 2024 data from MCMS and the most recent publicly available data, 2023, from all other public schools serving grades 6-8 in the County.

Subgroup	MCMS	All students countywide
Students with disabilities	22.3%	14%
English learners	28.5%	24%
Socio-economically disadvantaged	50%	64%
Asian	1%	3%

Black/African American	2%	2%
Filipino	0%	6%
Hispanic/Latino	52%	59%
White	43%	24%
2+ ethnic/racial groups	2%	4%
Decline to state	0%	2%

Clearly, the MCMS student body represents a fair approximation of the sub-group make-up of the county middle school age children as a whole, especially given the small population. Notable differences are that MCMS has a significantly higher percentage of students with disabilities and English learners, and a lower percentage of socio-economically disadvantaged students.

Staff and contractors: MCMS employs one full-time administrator, the Head of School; 5 full-time and 2 part-time teachers; 3 instructional aides; 1 special education Specialist; and contract counselor, psychiatrist, and therapists.

All teachers hold valid credentials issued by the CTC, and all are appropriately credentialed for their course assignments.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Current assessment data: Mayacamas does not yet have performance ratings in the Dashboard, given that it just opened in August 2024. However, the school has completed several initial assessments of student social/emotional and educational status.

Social/emotional status: The *Wayfinder* assessment was administered in August and showed that, schoolwide, a majority of students expressed concerns about acceptance, personal safety, bullying, and self-confidence.

Mathematics: Initially, students took the Teach-to-One assessment in August. Results will be compared individually at the end of the year. In early December, students completed the winter assessment of math through NWEA MAP. Those findings are not yet available.

English/language arts: Students completed the ELA assessment in NWEA MAP in early December. Those findings are not yet available. Additionally, students whose classroom performance, English Learner status, IEPs, or other sources indicated that their mastery of basic reading skills was not complete were given the Amira assessment. Results will be compared individually at the end of the year.

Current climate indicators show that the intense focus on social/emotional learning and support is already beginning to pay off. For example, the MCMS attendance rate through October 2024 is over 97%, which compares favorably to other county LEAs.

Reflections on the relevance of the assessment data to curriculum and instruction. Several facts are indisputable, including the following:

- 1) The students enrolling at MCMS represent a spectrum of academic achievement. However, a significant percentage are achieving at below the level predicted for their grade by NWEA MAP in both ELA and mathematics according to teacher assessment
- 2) Some students in every grade level are highly advanced.
- 3) A large percentage of students self-report social/emotional concerns about acceptance, personal safety, and self-confidence.

Staff has discussed the ramifications of these findings and concluded that...

The focus on social-emotional health and growth is essential as a bedrock foundation for learning. Students must feel physically and emotionally safe before they can focus on standards mastery and application and before they have sufficient self-confidence to learn the skills needed to manage their own learning.

Excellent Tier I teaching, with integrated differentiation, in every class is essential to supporting struggling students and challenging those who are high-achieving.

Significant focus on individualized learning is essential to empowering all students—helping those who are struggling to close the learning gap and engaging high-achieving students in challenging themselves.

Data-driven instruction is key to excellent Tier I instruction, targeted Tier 2 and 3 instruction, and individualized learning programming.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

As a new school, MCMS is not subject to state-mandated technical assistance. However, the school is fortunate to have technical assistance support from several significant partners, including

NCOE, the Mayacamas authorizer, which is providing contractor support for special education, administrative/organizational coaching, and oversight/feedback on meeting state and MOU requirements. Additionally, NCOE staff is providing UDL instructional coaching for teachers through a series of workshops that began in early October, is offering additional support in credentialing matters, has provided support for the development of the LCAP and Addendum, and is providing Teacher Induction, (fee for service) for teachers working on their clear credential.

Awakening Wisdom, an SEL non-profit contractor, which is providing support for all staff in implementing *Wayfinder*, increasing inclusion and equity, and supporting particularly vulnerable students.

New Tech Network, a project/problem-based learning non-profit contractor, which is providing support to staff in initiating problem/project-based learning in all classes by December.

ExEd, which is providing support for fiscal tracking and CALPADS reporting.

Sonoma State College, which is providing the initial venue and institutional support pro bono for the Mayacamas College and Career Explorers program in the spring.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Teachers	A significant portion of the staff meetings on September 18, October 16, and November 13 were devoted to the needs assessment and discussion of the goals and action plans in response to data analysis. At the November 13 meeting, teachers were given the goals, metrics, and action plans in the draft of the LCAP and met in small and large groups to provide feedback.
Other school staff	Other school staff (operations manager and aides) met individually with the Head of School during October to provide input into the needs assessment and proposed actions in relation to the goals.
Administrator/principal	MCMS has only one administrator, the Head of School. She totally concurs with the LCAP goals and feels the projected outcomes to be reasonable. Her response to the key parent questions are reflected in the summary below of how input from community partners was integrated into the LCAP.

Parents	<p>Many parents attended the first MCMS student-led conference in the period of October 28-November 1. Turn-out was over 75%. In addition to having their child review his/her personal ILP, parents were invited to provide comments about their experience with the school in the first 10 weeks in areas such as academic support, academic challenge, social-emotional learning, and student sense of competency and self-worth. Responses indicated that parents were very supportive of Advisory SEL focus and activities. Some parents felt that there was not sufficient academic challenge for high-achieving students and commented that they thought homework would be appropriate.</p> <p>Three important parent groups were also consulted.</p> <p>Parent-Teacher Organization Boot Camp: The first PTO Bootcamp was held on November 21, All parents were invited. The LCAP was introduced, and parent feedback included appreciation for the SEL focus and some concerns about behavior.</p> <p>School Site Council: On December 2nd, at their first afternoon meeting, the SSC was introduced to their role in school planning and governance and discussed the LCAP goals, metrics, and strategies. Their input included the following: the school should consider applying rules consistently, increasing personalized learning, and locking external doors during the school day. Parents appreciate the focus on the whole child, teachers and administrators who care, and staff responsiveness.</p> <p>English Learners Advisory Council: On November 21st, at their first evening meeting, the ELAC was introduced to their role in school planning and governance. A sign in sheet was provided and the ELAC agenda was followed. All of the information was presented in parent's mother tongue, Spanish. Introductions were made, Mayacamas Executive Leadership team, governance team, including attendees (composed of parents and students). Important school happenings were shared, including student progress reports. ELAC's purpose, function, structure/composition, and requirements were discussed. The importance of parent engagement/involvement for students' overall success. The impact on chronic absenteeism was addressed. Parent surveys were handed out for them to complete followed by a group discussion, which prompted questions and feedback. Parents had questions/suggestions related to ELPAC. In response to some of those questions, administrators provided details on Almira, a free program that is currently being used with students at Mayacamas to continue to support areas of reading and comprehension. Reclassification Criteria and ELPAC (English Language Proficiency Assessments for California), levels 1-4 were addressed. A link to the California Department of Education was included for parent's further reference: https://www.cde.ca.gov/sp/ml/reclassification.asp. The difference between ELD (focuses on language skills specific to English Language Learners) and ELA (focuses on literacy skills in specific subjects) according to the student's grade level was presented. Local Free Community Resources were shared and provided to parents and students. Parents took a Mental Health Flyer (Spanish/English version), among others. These provided information on services at the Napa County Library location (580 Coombs St, Napa, CA 94559), and included but was not limited to topics such as advocacy on mental health, Medi-Cal, CalFresh, Housing, and other, hours of operation, and the referral system to other local services. The library also offers free after school homework support opportunities for students both in person and online. Feedback was requested on topics of interest for the next ELAC meeting and parent training opportunities.</p> <p>The group discussed the LCAP goals and strategies. Their input included their appreciation of the Advisory class and the acceptance of their children. They had questions about English language development but no significant concerns. Slides of the presentation were emailed to all parents of English Learners, and those who could not attend the meeting were invited to provide input. Minutes were taken and distributed.</p>
Students	<p>On November 14-15, in all Advisories, students discussed the overall goals and responded individually, in small groups, and as a whole class to a series of questions about what the school could do to improve in areas such as support for academic success, engaging instruction, and promoting inclusive and safe environment. Students had a few concerns. Many students commented that the length of the current block periods make it difficult for them to be attentive. Others felt that disciplinary issues took too much class time. Many also suggested that the external doors be locked during school hours, with an office-controlled buzzer used for entry.</p>
Local bargaining units	Not applicable

Authorizer, Napa County Office of Education

Staff and consultants from the Napa County Office of Education conducted an observational visit on the 19th day of the school year. In early October, in a meeting with the Head of School, NCOE found the work done in SEL and inclusion to be quite effective. They identified a need to strengthen Tier 1 instruction and provide greater differentiation (challenge and support.) On a second walk-through and observation day on November 12, the same observers noted that teachers were using some of the UDL strategies from the NCOE workshop and that students appeared to be more engaged.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Collectively, our educational partners identified the need for greater personalization in instruction, including both greater challenge for those with high academic achievement and greater support for those who may be struggling academically. While the input was highly positive about the work in SEL, there was some concern about behavior management.

Given the input of our educational partners, the following elements were included in the LCAP:

Academic instruction: The school needs to focus on excellent Tier 1 instruction, while fully implementing the opportunities for academic and personal challenge and support inherent in the ILP. To do so, the strategies below are included in the LCAP.

Greater emphasis on the ILP and student understanding of their own achievement levels. If students are to be true partners in their education, it is important for them to be expected to take responsibility (in age-appropriate fashion) for their learning. To do that, they must understand their own data and how a growth mindset and good learning habits will help them achieve their goals.

Use of the AI tutoring and acceleration opportunities in Teach to One in math. The teacher and student establish goals, the student works toward these goals during a portion of class time and during Learning Lab, so that student exposure is 4 sessions/week for at least 20 minutes, the recommended approach. The teacher tracks student progress and works with the individual to update the goals.

Use of AI tutoring to address gaps in learning basic reading skills. English Language Arts students generally and English Learners and students with learning disabilities specifically were assessed for mastery of basic reading skills, including phonetic structure and word attack skills using the AI program, Amira. Students needing support in these areas are assigned Amira lessons for completion during Learning Lab. The ELA teacher is also looking into use of Khan Academy for individualized reading and vocabulary development.

Assignment of subject matter articles in Newsela, which provides differentiated levels of difficulty in the presentation of the same content, with complexity ranging from basic to highly challenging. Teachers in English, social studies/history, science, and the arts use *Newsela* during Learning Lab to enhance the regular instruction program.

Use of Brisk to provide individualized feedback in writing and individualized levels of reading content. English Language Arts and Social Studies classes are piloting the use of Brisk, an AI writing and reading support program, to provide basic, foundational commentary on individual student writing and to differentiate reading assignments, so each student is reading the same material at his/her own level of comprehension. With regard to student writing, faculty believes that Brisk will enable them to assign both more writing and more follow-up editing for writing improvement. With regard to student reading, the teachers expressed amazement that they would (finally) be able to differentiate all reading assignments—in and out of class.

Project/problem-based learning: Through projects, the teacher works with the individual student (and with the group, as appropriate) to build in the appropriate level of challenge for each student. In year 1, the first projects will be completed by the end of the calendar year in all classes.

Exploration of further personalization: During our first 3 years, we will explore the use of Khan Academy's Khanmigo AI teaching to provide both support and challenging learning opportunities in English, social studies/history, science, and the arts.

Professional development in strengthening Tier 1 instruction, including differentiation. NCOE will provide targeted professional development in UDL strategies to strengthen Tier 1 instruction. Workshops held approximately every other month will be followed by video and physical observation and feedback by the Head of School. The first workshop was held on October 11 and provided a refresher overview of UDL and information on specific strategies, such as expanding inclusiveness in discussions by using supported, randomized practices for calling on students.

SEL and inclusion: Adults and students almost uniformly stated or alluded to their belief that middle school youth could only thrive academically in an environment where they felt safe, included, nurtured, valued, and supported. Given that input, MCMS is retaining the current *Wayfarer* and SEL programming and is committed to expanding the concepts taught throughout the school day.

Goals and Actions

Goal

Goal #	Description	Type of Goal
Goal 1	Academic Achievement: Students will demonstrate growth in English Language Arts (ELA) and math and mastery of California standards in math, ELA, and science. English Learners (EL) will demonstrate progress in English language mastery and achieve reclassification.	Broad

State Priorities addressed by this goal.

This goal addresses State priorities 2, 4, and 8.

An explanation of why the LEA has developed this goal.

MCMS believes that maximizing academic growth for students in the targeted areas of math, ELA, English language development (for English learners), and science is essential to early adolescent academic development. This goal was developed in recognition of the fact that most middle school students in Napa County are achieving below the state average in math, English language arts, and science, given that 88% attend NVUSD, as shown in the chart below.

Napa County School Districts: Grades 6-8 2024 CAASPP Percent of Standards Met/Exceeded—All students

	Traditional Districts					Charter	California
	CJUSD	HMESD	NVUSD	PVUSD	SHUSD	Stone Bridge	Statewide
2024 ELA % Met/Exceeded standards	48.6%	40.0%*	38.4%	18.2%*	54.4%	57.9%	46.3%
2024 Math % Met/Exceeded standards	28.7%	24.0%*	20.0%	21.6%*	35.7%	42.8%	32.1%
2024 Science % Met/Exceeded standards	17.2%	25.0%*	21.0%	8.3%*	19.5%	55.6%	29.0%

Scores below the state average are highlighted.

*Scores are for all grades 3-8

What MCMS plans to achieve through this goal: Because most students entering MCMS will be coming from schools currently not equaling the state average in math, ELA, and science, MCMS understands that these gaps will not be immediately overcome. Thus, the school is projecting that students will show significant gains (reflected in NWEA scores) while reflecting CAASPP results at least similar to the

average in other Napa County districts. MCMS plans that $\geq 75\%$ of students will meet their NWEA math and ELA fall-to-spring growth goals; all students and relevant sub-groups will score within 5 percentage points of the state average on CAASPP math, ELA, and science; that $\geq 75\%$ of English Learners will progress by at least one ELPI level per year; and that MCMS will equal or surpass the state average for percentage of grade 6-8 EL students who are reclassified.

How the actions and metrics, when grouped together, will help MCMS achieve this goal. Actions include a focus on *what* is taught (standards aligned curriculum), *who* is teaching (hiring, professional development), and *how* instruction is provided (UDL strategies in MTSS Tiers 1, 2, and 3, plans for accelerated students, English development, and books/materials) to instruct and support students. Finally, aligned assessments for both growth (NWEA) and summative achievement (CAASPP) provide the metrics to determine the extent to which the actions supported achievement of the goal and offer insight into adjustments to be made in the 2025 LCAP.

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1	NWEA MAP Math	To be established in winter testing the week of 12/2/24			At least 75% of students will meet their winter to spring learning growth goals in math.	
2	CAASPP Math	Tests given in spring of 2025; results expected in early fall			MCMS will be within 5 percentage points of equaling or surpassing the state average for the percentage of grades 6-8 students who meet or exceed state standards in the math – all students and relevant subgroups.	
3	NWEA MAP ELA	To be established in winter testing the week of 12/2/24			At least 75% of students will meet their winter to spring learning growth goals in ELA.	

4	CAASPP ELA	Tests given in spring of 2025; results expected in early fall			MCMS will be within 5 percentage points of equaling or surpassing the state average for the percentage of grades 6-8 students who meet or exceed state standards in the ELA – all students and relevant subgroups.	
5	NWEA MAP Science	To be established in winter testing the week of 12/2/24			At least 75% of students will meet their winter to spring learning growth goals in science.	
6	CAST Science	Tests given in spring of 2025; results expected in early fall			MCMS will be within 5 percentage points of equaling or surpassing the state average for the percentage of grades 6-8 students who meet or exceed state standards in the science – all students and relevant subgroups.	

7	ELPAC: English Language Development progress	Tests given in spring of 2025; results expected in early fall			At least 75% of English learners will progress by at least one ELPI level per year on the summative ELPAC.
8	English Learner Reclassification Rate	TBD			MCMS will equal or surpass the state average for percentage of grade 6-8 EL students who are reclassified

Goal Analysis for 2023/24

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

N/A; see General Information, p. 1. Because MCMS first opened in August 2024, no goal analysis for 2023-24 can be completed.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

N/A; see General Information, p. 1.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

N/A; see General Information, p. 1.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

N/A; see General Information, p. 1.

Actions

Action #	Title	Description	Total Funds	Contributing
Action #1	Targeted curriculum and instruction	<p>Goal 1, Action 1 Targeted curriculum</p> <p>MCMS will take the following actions to ensure</p> <ol style="list-style-type: none"> standards-aligned, appropriate instruction in math resulting in students’ ability to fluently and accurately solve mathematical problems, apply mathematical reasoning, and explain their thinking at grade level; standards-aligned, appropriate instruction in English language arts resulting in students’ ability to read and comprehend grade-level fiction and non-fiction text, apply logic and reasoning to arguments, and express their thoughts accurately and concisely at grade level; standards-aligned, appropriate designated and integrated instruction in English language development resulting in all English learners’, including LTEL, growth in reading, writing, speaking, and listening in English; standards-aligned, appropriate instruction in science resulting in students’ mastery of grade-level concepts in biology, earth science, and physical science. <p>(1)1.1 Staffing: Using competitive salary/benefit packages and allowing for significant preparation and collaboration time, MCMS will attract, hire, and retain sufficient highly qualified instructional, administrative, and support staff to maintain lower-than-state-average class sizes to best serve English Learners, Foster Youth, and students from low-income families.</p> <p>(1)1.2 Professional development: MCMS will add professional development days to the calendar for staff who deliver instruction and support and ensure that the training offered meets program and staff needs and state requirements, specifically including</p> <ul style="list-style-type: none"> Strategies for integrated English language development Design and implementation of appropriate, standards-based projects (New Tech Network) Implementation of UDL strategies Use of instructional software specific to the appropriate discipline and grade level Use of tutoring programs and software generalized for all/multi-disciplines (e.g., Brainfuse HelpNow) and specialized for specific disciplines (e.g., Khan Academy.) Diversity, equity, inclusion, focusing on social-emotional well-being and maximizing academic success for all students (Awakening Wisdom) Age-appropriate reading skills through membership in NCOE Literacy for All project. <p>(1)1.3 Curriculum and instruction: Using whole class, small number, and individual grouping, provide high-quality, research-based, standards-based, grade-level instruction utilizing appropriate, standards-based materials, equipment, and supplies.</p>	<p>Teachers 100% of compensation: \$737,708</p> <p>Administrator 100% of compensation: \$142,140</p> <p>Support staff compensation:</p> <p>Instructional Aide cost charged to Title I: \$19,866</p> <p>Remainder of Instructional Aide cost (Non Title I) +Music Teacher \$18,430</p> <p>Books/materials, software, etc. for ELA, Math, ELD, and science: \$32,342</p> <p>Costs for tutoring and Afterschool Support: \$12,935</p> <p>Total Cost for Action: \$963,421</p>	N

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> • Instruction: using high-impact UDL instructional strategies, teachers will offer MTSS level 1 <i>differentiated</i> instruction to maximize student learning, especially for foster youth, English learners, and low-income students. • Intervention: Using research-based, tiered interventions, such as tutoring, small group coaching, and individual support, MCMS will provide additional MTSS level 2 & 3 support for students who are under-achieving or under-performing, with foster youth, English learners, and low-income students given first priority. • Acceleration/challenge: Acceleration/challenge will be offered through grade level advancement (math), project adjustment (all disciplines), and, as available, dual enrollment, with foster youth, English learners, and low-income students given first priority. • English language development: Curriculum, instruction, and support—both integrated and designated—will be individually crafted to maximize student growth in English language skills for all ELs and especially LTELs. <p>(1)1.4 Books, software, hardware, materials, and supplies: MCMS will provide all instructional materials and supplies for instruction staff, administrators, and students.</p>		
Action 2	Targeted learning assessment system	<p>Goal 1, Action 2. Targeted learning assessment system. MCMS will take the following actions to ensure that a comprehensive assessment system of targeted learning provides the data needed to maximize student achievement and performance.</p> <p>1. 2.1 Data analysis; plan development and implementation. Staff will have specific collaborative time to analyze assessment data and determine appropriate responses for</p> <ul style="list-style-type: none"> • schoolwide data • grade/class level data • individual student data. <p>Results will be captured in adjustments to</p> <ul style="list-style-type: none"> • schoolwide actions during the year and in the LCAP for the following year • classroom curricular and instruction strategies during the year • student ILPs and intervention plans/activities. 	<p>Cost of assessment tools: \$2,250</p> <p>¼ of total Professional Development costs: \$3,325</p> <p>Total Cost for Action: \$5,575</p>	Y

Action #	Title	Description	Total Funds	Contributing
		<p>1. 2.2 Professional development. MCMS will provide professional development in administration and results interpretation for</p> <ul style="list-style-type: none"> • specific curricula/intervention program assessments, e.g., Teach to One, Hampton-Brown Inside, etc.; • formative assessments, e.g., NWEA MAP and Smarter Balanced Interim Assessments; • summative assessments, e.g., CAASPP, CAST, ELPAC, reclassification data; • project assessment (New Tech Network); and • in-house universal screeners and survey tools <p>to enhance teachers' ability to review school-wide, class-specific, and individual performance data to monitor progress, guide practice, develop differentiated strategies, and make decisions regarding instruction, intervention, and acceleration/challenge.</p> <p>1. 2.3 Program materials: Purchase/access assessment materials, including NWEA MAP, Smarter Balanced Interim Assessments, and other tools, as needed.</p>		

Goal #	Description	Type of Goal
Goal 2	Student engagement and climate: Positive student engagement and an inclusive school climate will support academic success and be reflected in student outcomes for attendance, chronic absenteeism, suspension, expulsion, drop-out rates, awareness of college/career options, and a sense of connectedness.	Broad

State Priorities addressed by this goal.

This goal addresses State priorities 5, 6 and 8.

An explanation of why the LEA has developed this goal.

MCMS believes that creating the right climate and promoting student engagement supports student academic achievement and results in positive student social and emotional well-being. The need for such a targeted program is evidenced by data from traditional middle schools in Napa County. The chart below shows the percentage of students who were chronically absent in each of the Napa County middle schools in 2023 and the CDE status assigned to each.

Napa County Middle Schools: 2023 Percent of Students Chronically Absent and Status

	Napa County Middle Schools
--	----------------------------

	Amer Canyon	Unidos	Redwood	Silverado	RL Stevenson	Calistoga Jr-Sr
2023 % of students chronically absent	21.3%	19.7%	28.9%	36.5%	7.8%	10.2%
CDE-assigned status	Very high	High	Very high	Very high	Medium	High

This data documents serious (“high” and “very high”) chronic absenteeism in all NVUSD middle schools and in Calistoga Jr-Sr High. Some indications of the causes of this disturbing trend are found in data from the California Healthy Kids (CHKS) annual survey. The data in the chart below was taken from the “secondary” report for 7th grade for each cited district. There is no state level data for comparison.

Napa County Secondary Schools: 2023* CHKS Sample Indicators for Engagement and Safety, 7th grade

	NVUSD	Saint Helena	Calistoga
% of students who find school “boring”	43%	54%	34%
% of students who feel they meaningfully participate in school	21%	28%	29%
Percent of students who do not feel safe at school	51%	36%	46%
Percent of students who have been bullied or harassed at school	42%	49%	40%

- *2022 data was most recent available for Calistoga.

Analyzing this data raises the inevitable question: why aren’t the chronic absenteeism rates even higher? Less than a third of all 7th grade students in the County feel that they are meaningfully participating in their education, 44% find their studies boring, and 43% don’t feel safe at school.

MCMS will directly address chronic absenteeism, boring classwork, lack of engagement, and the students’ need for direct and meaningful participation in their education through NTN’s project- and problem-based instructional approach and through the student and Advisor’s

collaborative Independent Learning Plan. This is not guesswork. The research is clear: students come to school (and are even enthusiastic about learning) when they feel valued and validated as individual learners and are highly engaged in the learning process.

Finally, the California Department of Education provides an extensive range of options—from college-level academics to hands-on job training—to meet the criteria for being “college and career prepared” upon graduation. Unfortunately, in Napa County, almost half of all Seniors did not meet the criteria for college and career preparation. The chart below shows the percentage of seniors at each high school in the County who did not meet any of the state criteria and were deemed NOT prepared for college and careers.

Napa County High Schools: 2023 Percent of HS Seniors NOT Prepared for College/Careers

<i>2023 Percent of Seniors NOT Prepared</i>	American Canyon HS	Napa HS	New Tech HS	Vintage HS	St. Helena HS	Calistoga Jr-Sr HS
% of Seniors NOT prepared for college/careers	41.9%	63.2%	46.4%	63.0%	37.4%	44.1%

What MCMS plans to achieve through this goal: MCMS plans that the school will be equal to or lower than the state average for percentage of grade 6-8 students who are chronically absent, suspended, expelled, or drop outs; that the ADA rate will be $\geq 94\%$, and that students' positive responses on the CHKS elements of school connectedness and safety will be equal to or greater than that of similar grade students in other public schools in the geographic target area.

How the actions and metrics, when grouped together, will help MCMS achieve this goal. Actions include implementing Advisory, counseling, *Wayfinder* curriculum, Individual Learning Plans that include social/behavioral goals, MTSS/PBIS, proactive attendance monitoring and response, and the Mayacamas College and Career Explorers program. MCMS will evaluate these activities individually and collectively to determine the extent to which the actions supported achievement of the goal. This will provide insight into adjustments to be made in the 2025 LCAP.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1	Chronic Absenteeism Rate	TBD			The chronic absenteeism rate will be below the state average	
2	Attendance Rate	97.% through October 2024			The attendance rate will be ≥ 94%	
3	Drop Out Rate	0 through October 2024			The dropout rate will be below the state average	
4	Suspension Rate	0 through October 2024			The suspension rate will be below the state average	
5	Expulsion Rate	0 through October 2024			The expulsion rate will be below the state average	
6	CHKS – specific elements	TBD			Students’ positive responses on the CHKS elements of school connectedness and safety will be equal to our greater than that of similar grade students in other public schools in the geographic target area.	

Goal Analysis for 2023/24

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

N/A. See “General Information,” p. 1.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

N/A. See “General Information,” p. 1.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

N/A. See “General Information,” p. 1.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

N/A. See “General Information,” p. 1.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

**NOTE: Since Mayacamas Countywide Charter School is in its first year of operation, there is no Annual Update and no Annual Update Tables for the prior academic year.*

Action #	Title	Description	Total Funds	Contributing
1	Advisory, <i>Wayfinder</i> curriculum, counseling	<i>Wayfinder</i> curriculum used during daily advisory and reinforced throughout the school day in classes and other venues. As soon as an appropriately credentialed professional can be hired, counseling will be available to all students through a part time therapist/counselor who takes referrals from students, administration and students.	Wayfinder curriculum: \$8,319 Counseling costs: \$5,000 TOTAL Cost for Action: \$13,319	Y
2	Individual Learning Plans (ILP)	Individual Learning Plans include supported student development and progress tracking of goals in academics, learning and social behavior/habits, and personal growth. ILPs have been expanded to include student understanding of data to help them set goals. Students will also explain their data and goals to parents in the student-led conferences. Staff has been trained and all ILPs were introduced to students by mid-October.	3/4 of Professional Development costs: \$9,975	Y
3	MTSS/PBIS	MTSS academic responses in Tiers 1, 2 and 3 were discussed in Goal 1. In terms of behavior management, staff adjusted the behavior management program in late September to better reflect the needs of the student body, to hold students more accountable, and to provide opportunities for them to reflect on their actions in relation to their ILP goals.	See G1A1 for costs.	Y
4	Pro-active attendance monitoring and response	MCMS serves a high percentage of students with disabilities, and research indicates that students in this population tend to have lower attendance rates than that for all students. MCMS uses a pro-active attendance strategy with particular attention to students with disabilities, initiating parental contact to reflect concern early—at the 5 days of absence mark.	Operations manager compensation: \$76,993 Powerschool costs: \$24,489 TOTAL Cost for Action: \$101,482	Y

5	Age-appropriate Mayacamas College and Career Explorers Program	The Mayacamas College and Career Explorers program is beginning with 3 elements: 1) Use of CalCRN college/career awareness curriculum for each grade level in Advisory; 2) Field trips to workplaces, union apprenticeship programs, trade schools, etc.; and 3) An 8 th grade hands-on college experience involving a project with Sonoma State University.	Field Trips: \$5,000	Y
---	--	---	-----------------------------	---

Goal

Goal #	Description	Type of Goal
Goal 3	Infrastructure for student success: Student success will be supported by a sound basic academic and physical infrastructure, a focus on state standards, assignment of appropriately credentialed teachers, an emphasis on family engagement/involvement, and access to a broad array of courses to meet student needs.	Broad

State Priorities addressed by this goal.

This goal reflects State priorities 1, 2, 3, and 7.

An explanation of why the LEA has developed this goal.

MCMS believes that creating the right climate and promoting student engagement supports student academic achievement. Research demonstrates that appropriately credentialed teachers, a focus on academic standards, access to a broad course of study, and effective family engagement programs can boost academic achievement. Studies have also shown that schools with appropriately maintained facilities have higher rates of attendance, fewer suspensions/expulsions, and higher levels of academic achievement.

What MCMS plans to achieve through this goal: MCMS plans that the school will employ/assign teachers who are appropriately credentialed; this is a challenge in a small school, but MCMS is making it a priority. The school will also provide all students with access to standards-aligned materials, offer all students a broad course of study, maintain facilities, and involve parents with their children’s education.

How the actions and metrics, when grouped together, will help MCMS achieve this goal. Maintaining a sound infrastructure is essential to the operation of a successful program. Actions include a wide range of parent engagement activities; offering social studies, health/PE, arts, and college/career activities to complement the ELA, math, and science delineated in Goal 1; providing standards-aligned instructional materials for all students; hiring and appropriately assigning credentialed teachers; and maintaining facilities in good repair. MCMS will evaluate these activities individually and collectively to determine the extent to which the actions supported achievement of the goal. This will provide insight into adjustments to be made in the 2025 LCAP.

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1	Teachers appropriately credentialed for their assignments	All teachers credentialed; all are appropriately credentialed for their assignments			90% of the teaching staff will be appropriately credentialed for their assignment.	
2	Student access to standards-aligned instructional materials	Standards-aligned curriculum is in use in math, science, social studies, English, ELD, physical education, and arts.			All subjects will have standards aligned curriculum	
3	Access to a broad course of study is provided to all students, including low-income students, English learners, foster youth and students with disabilities.	All students have access to a broad course of study, & programs/services are provided to low-income students, English learners, foster youth, and students with disabilities.			All students have equal access to all classes, curricula, and programs	
4	Facilities in good repair	Facilities inspection conducted by NCOE staff and contractor in 8/24; all repairs needed were completed prior to school opening.			Facilities in good repair	

5	Family Involvement and parent participation	TBD			At least 75% of families responding to the annual survey will indicate that they have been moderately or highly involved in school activities, and parent participation is promoted in programs for low-income students, English learners, foster youth, and students with disabilities; at least 25% will indicate that this involvement included decision making, leadership, or providing input other than the survey.

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #(s)	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.2	Academic concerns	<p>(a) Assessments are needed to gauge relative needs and determine effectiveness of strategies.</p> <p>(b) Assessments are given on a schoolwide basis to ensure a common database and experience for all students. State tests are required of all students.</p>	Assessments provide the metrics for monitoring the academic progress for all elements of Goal 1.
2.1	Non-academic/social-emotional concerns: student sense of belonging	<p>(a) Advisory and the Wayfarer curriculum provide the foundation for the SEL program which is key to student well-being.</p> <p>(b) Every student is assigned to an Advisory class to establish common norms and understandings about SEL that are the essence of the school culture.</p>	School culture metrics include all those cited for Goal 2: attendance/absenteeism/drop out, suspension/expulsion, and specific CHKS elements
2.2	Non-academic/social-emotional concerns: need for student agency	<p>(a) The ILP provides students with a pro-active way to influence their education and set personal goals.</p> <p>(b) The ILP is a major component of Advisory and sets the tone for the school's expectations of student agency, a significant part of the school culture.</p>	School culture metrics include all those cited for Goal 2: attendance/absenteeism/drop out, suspension/expulsion, and specific CHKS elements
2.4	Non-academic/social-emotional concerns: student sense of belonging	<p>(a) The focus on attendance ensures that students are in school to benefit from the other actions in Goal 2.</p> <p>(b) Attendance is an expectation that is foundational for the school culture.</p>	School culture metrics include attendance and absenteeism, as well as the related measure of drop out.
2.5	Non-academic/social-emotional concerns: preparation for college and careers	<p>(a) The Mayacamas College and Career Explorers program provides a venue for developing short-and long-term plans and strengthening student agency.</p> <p>(b) It is an important part of the school culture.</p>	School culture metrics include all those cited for Goal 2: attendance/absenteeism/drop out, suspension/expulsion, and specific CHKS elements

3.1	Academic and social-emotional concerns: appropriate educational infrastructure	(a) Having teachers appropriately assigned and providing support through induction and other programs improves instruction and teachers' ability to relate to the whole child. (b) Teachers' classes are not segregated by student economic status, so the benefit of teacher support automatically accrues schoolwide.	Percentage of teachers appropriately credentialled
3.4	Academic and social-emotional concerns: appropriate educational infrastructure	(a) Parent involvement has been consistently proven to improve student academic performance and general well-being. (b) Especially in a small school, parent involvement activities need to be schoolwide to establish the culture of inclusion.	Percentage of parents responding positively to specific items on annual survey.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
N/A			

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

N/A

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

N/A

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	45:1	N/A
Staff-to-student ratio of certificated staff providing direct services to students	15:1	N/A

1. Projected LCFF Base Grant	2. Projected LCFF Supplemental and/or Concentration Grants	3. Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

- Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).
 - **NOTE:** As specified in *EC* Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to *EC* Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, *EC* Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.
- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or

- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes

between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* sections [52060\(g\) \(California Legislative Information\)](#) and [52066\(g\) \(California Legislative Information\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section [47606.5\(d\) \(California Legislative Information\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062 \(California Legislative Information\)](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068 \(California Legislative Information\)](#); and
- For charter schools, see [Education Code Section 47606.5 \(California Legislative Information\)](#).
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected

outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.

- When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
- The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: EC Section [42238.024\(b\)\(1\) \(California Legislative Information\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design

of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
 - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 . Leave blank until then.	Enter information in this box when completing the LCAP for 2026–27 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 and 2026–27 . Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

- As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
 - The reasons for the ineffectiveness, and
 - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
 - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
 - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.
- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.
- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose

meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC Section 42238.02* is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.
- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. *This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.*
- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action’s number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type “Yes” if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type “No” if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If “Yes” is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

- **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
- **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.

- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.

- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
 - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
 - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
 - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.

- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).

- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
